

## **Srilekha Palle**

### **Board Member**

Dr. **Srilekha** Palle is a seasoned healthcare executive with an impressive academic background from Boston University and over twenty years of experience in the healthcare industry, particularly in Rehabilitation Medicine and healthcare administration. Her work in the DC/MD/VA region has been pivotal, enhancing patient care through strategic planning and program development.

Internationally recognized, Dr. Palle contributes to the global healthcare discourse, presenting on platforms that link Rehabilitation Medicine with emerging healthcare models. Her in-depth healthcare market research informs her policy advocacy, establishing her as an influential figure in local and global healthcare sectors.

Dr. Palle's path from rural India to becoming a respected healthcare strategist in the USA exemplifies her dedication to closing healthcare disparities and driving innovative progress. Her charitable work, particularly with the Vicente Ferrer Foundation, underscores her commitment to sustainable development and empowering rural Indian communities towards autonomy and resilience. Her philanthropic philosophy emphasizes long-term empowerment over short-term aid, reflecting her strategic and leadership qualities. Dr. Palle's volunteerism and charitable activities are fundamental to her persona as a transformative community leader and a proponent of humanitarian advocacy.
